

# SILBER PRESENTS: "30 SECONDS OF TIME"

In the end, time is the master of all things. So how do we fill it? "Silber Presents: 30 Seconds of Time" illustrates 46 ways to fill half a minute, to break it up, give it fluence, assign weight, distribute emphasis, focus, forget, assault, nurse, desperately grasp & marinate with a disabused strip mall rendition of unglued squelching cultural fault lines assembled as one release in which all tracks can be downloaded as ringtones so you can have a constant reminder of your favorite method of time travel - musical memory. As no surprise, the concept breeds a schizoid listening experience ranging from odd textural crops, a capella love songs, post apocalyptic drones, meandering guitars, musique concrète & on & on. The list of musical types is almost as long as the list of tracks. With over 20 different musicians & bands including Moodring, Zanzibar Snails, Irata, Remora, Rollerball, Yellow6, Fires Were Shot, a solid representation of the 919 Noise clan, loads of new faces on the Silber pallet, many from our foundations & a few new bands with familiar faces. There's something for anyone & nothing for everyone, all at once. As always thank you for your interest & support & please help spread the word.
