

MISTER SCIENCE

Five Educational Minutes

In 1952 his experiments in space travel resulted in a cryogenic freezing to keep his knowledge out of reach of enemy hands. Misclassified, his body was lost in a warehouse setting back humanity's exploration of the stars by a thousand years. Recently brought back to the realms of the living, we are pleased to present to you Mister Science.

On *Five Educational Minutes*, Mister Science has abandoned his goal for the stars. During his sixty year slumber his dreams revealed a destruction of mankind he could not be party to & so he brings to us a better vision of the future. A vision of music.
