

northern valentine

juno

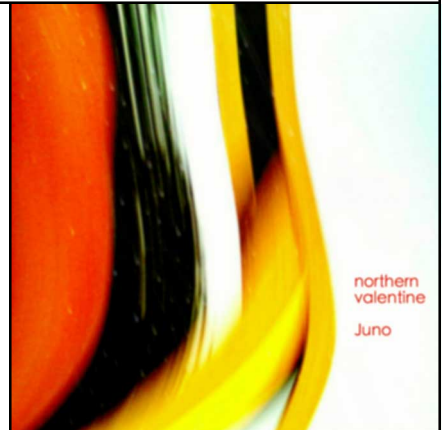

Northern Valentine has been together since 1998 focused around husband & wife Robert & Amy Brown making their own fusion of psychedelia, shoegaze, post rock, & ambient music. Generally known for long form meandering soundscapes, for them the five minute EP series was a particular challenge that they rose up to. On *Juno* you can hear the space & room, the hope & wonder, & the shimmering guitars that make Northern Valentine special.
