

Drekka Soundsystem's *Spartan Dub* is a collection of "micro-dubs" recorded at sound checks throughout Europe on Drekka's *Europe Endless* tour in the winter of 2011/2012.

To get the levels right before beginning the actual performance at hand, a tradition was born wherein Drekka would DJ a short dub/roots set to test effect pedals & other equipment to make sure everything was ready for exploration. These improvised dubs were captured on tape & edited down to the five minute micro dub clash boom boom before you.

Drekka Soundsystem is part of Lubeyaj Soundsystem, Bloomington.
