

Dan West

Expression Compression

Silber is of course all about connections & family & we hooked up with Dan West because he's in a project called LoveyDove with Azalia Snail, though he may be somewhat better known for his work with psych/mod groovesters Sidewalk Society.

On *Expression Compression* Dan West brings 5 impressions in 5 minutes of a mind gone mad, a world in a sea of static, a voice screaming to be heard through the hum & drone of contemporary anomie. Think of a cassette where both sides are playing at once & one side has Sonic Youth & the other has Sun Ra & you're on the right track.
