

RLLRBLL 4 CORNERS

For nearly 20 years Rllrbll has been churning out their own flavor of post jazz experimental rock freakouts. Never satisfied to stick to one genre, Rllrbll continues to push their music into multiple genres simultaneously. It's no wonder they've become a favorite of so many tired of hearing the same clichés recycled every ten years.

On *4 Corners* Rllrbll is a hybrid between Sun Ra's Arkestra & Siouxsie & the Banshees & Iggy Pop's excursion into reggae. There really aren't words to describe their mix of songs filled with structure & chaos. Just tune in & get lost in the grooves.
