

Black Wedding Recursive

Black Wedding is a collaboration between musician Joshua Heinrich (fornever) & music journalist Julie Johnson (Grave Concerns) & on *Recursive* their style is new wave filtered through a darkwave sieve. First formed over ten years ago, their output has been limited by the time constraints of their busy schedules. Which is exactly what makes them a perfect fit for the 5in5 series & what we are trying to do with it. Help musicians who don't have the time & energy to dedicate to a full album have the chance to put something together to unleash on the world that they can complete in the little time they do have.
