

moodring

cottage mess

We're pleased at Silber to bring Moodring back into our fold. Started years ago as a side-project of the mighty Rllrbll, for several years now they've been a consistent & co-existing project made of Mae Starr (keys, samples, percussion, voice), Jesse Stevens (drums, flute), & Monte Trent Allen (electric bass). Somewhere between art rock & meditative jazz, these Portlanders never fail to bring the goods.

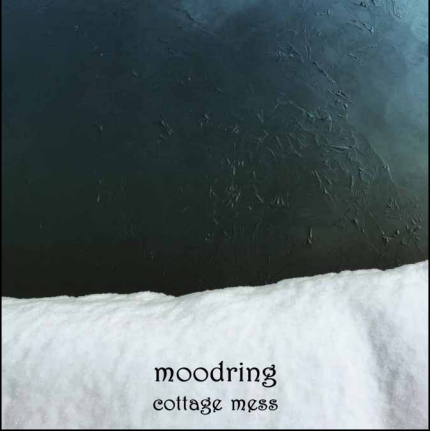

Cottage Mess was created at Caldera Arts Center in central Oregon in 3 days & nights of improvisation. Caldera is an amazing place, sitting on a volcano in the wilderness inspiration was easy to find. The tracks were recorded on Christmas Eve and Christmas Day 2015 by Jesse Stevens. Also worth mentioning, the bass rig was an original Sunn that was used to record "Louie Louie" if the legends are true. Stare into the hours & transcend above the why's of lies.
