

# MAGNETIC GHOST LOSS MOLECULES

*Magnetic Ghost haunts the senses with droning, expansive, & looming compositions that veer from quiet contemplation to incendiary intensity in a matter of seconds.*

*~ Delusions of Adequacy*

A couple of months ago I got an email from Magnetic Ghost saying Joy of Violent Movement mentioned Silber in their review of a video he made, so he thought I might like it. I checked out the music & even though he wasn't looking to join, about a minute into "Vanish / Vanishing" I knew I'd found a new member of the Silber family.

Magnetic Ghost is the brainchild & collective musical works of Andrew Larson. Functioning initially as a record imprint, then as a multi dimensional solo project in live engagements, to full band arrangements on record; it fully encompasses a varied musical approach. Magnetic Ghost draws from a variety of genres – from shoegaze, post-punk, kraut rock, freak folk, drone, post rock, & many others – resulting in it's own unique brand of rural psychedelia inspired by the beauty & isolation of open spaces & the creeping anxiety of the human drive to fill those spaces. The vast snowy plains of Minnesota are waiting to swallow you alive until you will sleep every night, every day, forever.
