

electric bird noise

The Spider...The Christ Child.....The Crow

For the past two years one of the primary facets of Electric Bird Noise has been the discordant chorded minimalist guitar jazz music for art galleries of *Kind of Black, Birth, & Follow the Star & The Spider...The Christ Child.....The Crow* continues this series with chords fingered by spiders, plucked by crows, & built for The Christ Child. It's not a horror movie, it's a celebration!
