

P.D. WILDER

Remember to Remind Me

P. D. Wilder, ex-Hotel Hotel, continues in the age-old tradition of hillbilly beardos playing ambient drone music solo armed with a guitar & a dozen pedals. Now a father, Wilder recorded much of *Remember to Remind Me* during the nine months before his son's birth. A reflection & meditation on life with change during the anticipation of change. Birth, life, death, birth, always changing always moving forward, always the same – yet always building & changing, drone is forever.
