

# AZALIA SNAIL'S NEON RESISTANCE

*“She has always written very personal songs & on her new album, Neon Resistance, that is still very much the case. Its lead track, ‘Celeste (Can You Feel It)’ , is huge, an epic pop song that will ear-worm its way into your life. Let’s hope there really is that parallel universe where Azalia is a star & appreciated for producing songs like this & then lets all go live there! So many of these latest songs really do stay with you, Azalia has managed to capture her personality in them, produced something unique & original to her & they are just plain catchy.”*

*~ Stephen Rennicks, Ambient Analogue*

Azalia Snail has been making her uniquely sweet, hypnotic, noise-inflected brand of pop music since the days before Nirvana broke. Her entire catalog has a spirit of timelessness where you could believe the music was rare gems from the late 1960s as well as from the 1990s when she first appeared on the scene or today. We are always pleased to spread the good news of new music from Azalia here at Silber.

With her new album, *Neon Resistance*, which says a thing or two about the current state of affairs, producer/arranger & LoveyDove bandmate Dan West has tightened, refined & glorified Azalia’s sui generis sound, creating a textured, shimmering pop & roll album for the 21st century. Upbeat, triumphant, & joyous – this is the true sound of resistance & it's irresistible.
